

JOIN AN EARTH EXPLORE ADVENTURE - 4 EASY STEPS

1) Attend an Information Meeting

Our teacher led information meetings supply lots of important travel information, and allow parents and students to get to know the chaperones and learn about the program itinerary.

2) Turn in an application, or apply online.

Students can apply directly to their teachers, or instantly online. Once the application is received, students will be told their status within the group. If the group is filled to capacity, the student may be offered waitlist status.

3) Attend Group Meetings

In the months before departure, local teacher chaperones will be holding from 3-6 meetings, called Preparation Sessions. Be sure to attend as many as possible.

4) Keep up with Documents

Prior to departure, all students will turn in student health forms, any required waiver forms, and acquire a passport, if necessary. All of these steps are covered in the teacher-led prep sessions, and in the program newsletters that arrive every few months.

Did you Know?

That you can print an array of materials, from program brochures, to newsletters and forms at this address:
